

# Electronic Document Management

## The benefits to your business

TechnologyOne in conjunction with **SICCI** invites you to attend a lunch seminar and software demonstration on document management.

Avoiding information overload, and managing and storing vast quantities of documents within any organisation presents multiple challenges. The TechnologyOne Enterprise Content Management (ECM) solution enables organisations to easily and efficiently manage the lifecycle of electronic and paper-based information, while also making information easier to use for organisation and stakeholder outcomes.

Join us to find out how software can improve the way you use and access business information, and collaborate with peers who are facing similar document management challenges.

Places are limited so please book early - the luncheon costs \$160 per person.

Register by 10 November 2011. Email: [advocacy\\_sicci@solomon.com.sb](mailto:advocacy_sicci@solomon.com.sb) or call 39542.

We hope to see you there!
